

DALE **CORB436**

CUSTOM BOAT BUILDERS

## *A custom boat – perfectly you.*

---

To commission a custom built *DALE* is like no other boating experience.

Your ownership begins on the drawing board – yours to be built as you choose.

Individual interiors, traditional materials, the latest lightweight composites, or a combination of both, your choices of equipment, quirky little features, the smallest detail – everything is hand crafted to be perfectly you.

There need be no compromise.

The high performance yacht featured on these pages was just such a build – from the drawing board of John Corby, the technology of a cedar strip/carbon fibre composite hull marries perfectly with *DALE's* traditional craftsmanship, technical ability and superlative standards of finish.

Composite hull: cedar strips planks scarfed together, then faired, sheathed in carbon fibre, smoothed to a fine finish with epoxy coatings and finished with Awlgrip paint.

*DALE Corby 36 principal specifications.*

John Corby designed high performance hull  
 in cedar strip/epoxy composite

Superstructure in carbon fibre/foam sandwich composite

Interior fit out in a combination of carbon fibre and hardwood

Length over hull..... 10.92m

Beam overall..... 3.17m

Draft..... 2.3m (dependent upon fit out)

Fuel capacity (approx.) ..... 65 ltrs (14.5 gallons)

Electrics..... 12V twin battery system

Engine ..... Yanmar 3YM 30SD Saildrive

*“DALE has set a new standard for the interior fit out of a Corby Yacht and paid meticulous attention to detail”*

*John Corby*

### *The assurance of a hand-crafted build.*

From the keel upwards, every *DALE* is entirely created by our own craftsmen. The solidity apparent on the surface runs right through the boat. Engineering installations are meticulous. Finishes are honed until we can perfect them no more.

Every stage of the build is monitored to the most exacting standards to give you the dependability and total reassurance to venture into whatever conditions you want to throw at your boat – even the high stress rigours of top class racing.

### *The first step to commissioning a DALE...*

Talk to us to discuss your ideas, requirements and even dreams – from a high performance motor launch, performance racing yacht or cruising yacht, to a 75ft motor yacht, in the latest composites or traditional timber, we have the proven ability, conviction and drive it takes to run from concept to launch.
